This image is a dark, low-quality scan of a document page. It features a prominent vertical tear or crease along the left edge. The page is covered with faint, illegible markings that appear to be either bleed-through from the reverse side or extremely faded text. A horizontal line is visible across the middle of the page, and there are some darker, more distinct marks on the right side that could be remnants of handwriting or stamps. The overall appearance is that of an old, damaged, and poorly preserved document.

Through Major Wilke

Chief of Artillery & Ordnance
In Obedience to the above Order the Board consisting of
Capt E. W. Taylor & Capt H. E. Loebnitz met at the Ordnance Depot

of Capt. H. V. Scott and examined a box of Enfield Rifles produced by Lieut. C. Haldenwang as damaged. The Board found the Arms in a condition unfit for use seemingly, caused by the guns having been in Salt Water but would suggest as the damage does not effectually render the Arms worthless to have them at once cleaned & repaired to be made useful and in consideration thereof are of the opinion that those twenty Enfield Rifles should be received by Lt. Chas. Haldenwang at 50 per cent. less than the Original Cost viz \$15.00. so that the guns should cost not more than \$7.50. As to the Quantity of Lead we found that at the time the Board met, the original Quantity of Lead did no more exist but according to statement of Lieut. Chas. Haldenwang some fifty Pigs had been issued of it. Therefore we recommend that Lieut. C. Haldenwang should receive the Lead as stated in the Invoice.

No other Business being on hand the Board adjourned
